ORGANIZATIONS

Trainee

Jun 2018 – Dec 2018 | **DevAcademy**

I was part of the Frontend Track learning HTML, CSS, JavaScript, Vue.js, REST, Firebase Realtime Database.

Frontend Developer

Dec-2018 – Oct 2021| **IBM Romania**

🖥 Overall technologies: HTML, CSS, JavaScript, REST, Sass

☑ I investigated and solved packages vulnerabilities from the applications;
☑ I contributed actively, by helping other colleagues with code review and implementing reusable components;
☑ I participated in every meeting and decision in a proactive way in order to deliver a quality and clean code which meets the client requirements. I suggested various changes to the design that was taken into account, so the user can have a better experience using the application.

💼 Internship - Germany
📅 12.2018 - 02.2019
🏛 Industry: Insurance

🖥 Technologies: HTML, CSS, JavaScript, Angular, RxJs, Vue.js, Vuex, Firebase, Ionic

💼 Client 1 - Germany
📅 03/2019 - 03/2020

🏛 Industry: Reinsurance
🖥 Technologies: Angular, Ionic, TypeScript, Capacitor, RxJs

💼 Client 2 - United Kingdom
📅 03/2020 - 03/2020

🏛 Industry: Retail
🖥 Technologies: React.js

💼 Client 3 - United States
📅 04/2020 - 10/2021

🏛 Industry: E-Commerce
🖥 Technologies: Angular, TypeScript, RxJs, Adobe Experience Manager, VirtualBox
Noticeable features delivered:
★ Feature that wants to improve the customer experience regarding the promotional codes;
★ Feature that wants to help customers to find easier the products already bought in the past.

Practicand / Drive your future

Jun 2017 – Sep 2017 | **Groupe Renault**

🏛 Industry: Automotive

☑ Database maintenance using my own Matlab scripts

RECOMMENDATIONS (more on website ↗)

"During her time spent on Alpha space, Madalina has shown a lot of flexibility and maturity. Even though she had to change teams and industries, from banking to insurance, her experience has been extremely appreciate by our main stakeholders and there have been multiple requests to keep her on Alpha. From a technical perspective, she delivers extremely fast and at a high quality. For example, she managed to bring visible improvements on the web app in just a couple of weeks, as well as mentioning more junior team members. If given the opportunity (to match her expertise and role desired), she has the ability to make a huge difference, she has the skills and determination needed. For that, she has my respect and support through her career path, here in Digital."

Isabela Pecete, Project Manager in Deloitte Digital

"I worked with Madalina on the same project for over a year. Even though she started as a Junior Developer, she quickly managed to learn and acquire quite an extensive set of skills. Her determination to never give up and always learn and improve, is what sets her apart from many other developers out there.It's been a pleasure working with her. She is currently riding the proverbial wave and I am sure she will achieve great things in the future.I highly recommend her to anyone looking to expand their team(s)."

Theodor Palamaru, Frontend Developer in IBM

"I have been working with Madalina for almost two months on Alpha for Insurance core project. Even though the collaboration was for a short while as the project could not afford extra costs at this time, she managed to leave a very strong impression. She gave a huge boost to our Web app development, she came with a very long list of improvements to our existing app and managed to implement a lot of those items in just a couple of weeks. The quality of the code she has been writing and the overall work quality has been impressive. She is hard working and determined to deliver good quality work. For Web developer Consultant level she is a top performer. I hope to work with Madalina soon. I would always want her in my team, given the opportunity.

Dragos-Vasile Lungu, Technical Lead in Deloitte Digital

"Madalina is always reliable and helping her team members, able to understand the requirements and come up with a solution. It was a joy and always had confidence while working with her. I am strongly recommend her in any new opportunity and challenge."

Raluca Rusu, Project Manager in IBM
